## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-15, 21-29, 32-34 and 40-53 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's claimed invention discloses a method, system and manufacture for detecting an intrusion initiated in a first network toward a second network, whereby a probe located on a first network link, the probe outside the second network, communicates converted data packets received at the probe to an IDS. The prior art discloses a similar invention; however, the prior art does not suggest converting the received data packets received at the probe into a format suitable for an IDS for detecting the intrusion initiated in the first network toward the second network, the IDS located outside the second network and configured to not receive data packets exchanged inside the second network. Therefore, claims 1-15, 21-29, 32-34 and 40-53 are allowed

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
